MISSION STATEMENT

The mission of Greater Essex Counseling Services is to provide professional, comprehensive care to those who suffer from substance abuse or addiction as well as patients in need of co-occurring services. We strive to create and maintain an environment that is warm and welcoming, values diversity and difference, and provides a feeling of safety while promoting growth and development in the hope of helping our patients come to appreciate the uniqueness of their personalities and discover new ways to reach their potential. We provide a range of services that include assessment, counseling, consultation, outreach, crisis intervention, psychiatric evaluations, medication monitoring, employee assistance counseling, information and referral services, and urine drug screening services.

We aspire to be highly visible to the community in our office located in the heart of Downtown Newark. We believe we play an important role in helping to create a community climate that fosters emotional, psychological, intellectual, and interpersonal growth.
